FROM THE EDITOR'S DESK... Joseph R. Monforte, Ph.D.

I am pleased to be part of the ToxTalk team, hoping to bring new and interesting articles and events to your attention. My immediate objectives include presenting more technical information on a routine basis and incorporating an entirely new section - "Literature Review Highlights;" some of these will appear in the June issue.

ToxTalk will continue to be published quarterly - March, June, September and December. The deadline for submitting material will be one month before the publication month. The deadline will be compromised when necessary to bring important information to the membership on a timely basis. The deadline for this issue was extended to allow information from the meetings held in conjunction with the AAFS meeting in February.

All members are encouraged to submit material for publication consideration. ToxTalk can best serve our needs if we have contributions from many --- share your insights, experiences, interesting cases, technical knowledge, management techniques, etc., We would appreciate receiving your contribution soon so that we can accumulate materials for future issues.

I look forward to hearing from you.

Joseph R. Monforte, Ph.D., has recently been appointed co-editor of ToxTalk. His experiences in toxicology include SOFT past-president and 1983 meeting host, former chairman of the Toxicology Section of the American Academy of Forensic Sciences, a current director of the American Board of Forensic Toxicology, and a member of numerous scientific organizations and committees. For more than fifteen years, Dr. Monforte has been directing the laboratory at the Wayne County Medical Examiner's Office, one of the most active forensic laboratories in the nation.

HIGHLIGHTS: A.A.F.S. MEETING

FEBRUARY 15 - 20, 1988
PHILADELPHIA, PA

The Toxicology Section of the American Academy of Forensic Sciences again enjoyed a very professionally rewarding meeting. The current impact of drug abuse testing was evident from the Opening Session/Keynote Address, "Forensic Science and Society: The Drug Abuse Phenomenon." Interesting workshops included "Drug Use Testing: Forensic Science and Legal Issues," "State of the Art Analytical Techniques," and "Patterns and Trends in Drug Abuse."

A total of 66 platform and poster presentations were presented some of which evaluated the stability of agents such as ethanol, THC, THC-carboxylic acid, cocaine and benzoyl ecgonine in biological specimens. Other presentations discussed deaths involving a combination of sufentanil plus medazolam, and chloroquine plus bromocriptine. Deaths involving only single agents included thiamylol, arsenic, fluoride and etchlovynol. Several presentations considered either the quality control or quality assurance aspects of forensic toxicological testing.

The informal evening session presented various viewpoints relative to the application of the NIDA guidelines for urine drug testing to postmortem forensic toxicology.

SUMMARY OF S.O.F.T. BOARD OF DIRECTORS' MEETING

The Officers and Board of Directors of S.O.F.T met on February 16, 1988, in Philadelphia, PA, during the annual AAPS Meeting. The S.O.F.T. Board Meeting was called to order by President Michael McGee.

The members in attendance agreed that the 1987 S.O.F.T. Annual Meeting in Key Biscayne, FL, was an exceptional success both professionally and financially. A well deserved expression of appreciation was given Leonard Bednarczyk for his efforts. Future meeting hosts would benefit by contacting Dr. Bednarczyk for advice on site arrangements and recruitment of exhibitors and corporate sponsors.

Dr. Jane Speaker reported that the arrangements for the 1988 S.O.F.T. Annual Meeting are on schedule. The meeting will be held on Wednesday, September 28th, to Saturday, October 1st, at the Hershey Hotel in Philadelphia, PA. A Call-For-Papers is inserted in this issue of ToxTalk. Dr. Michael Schaffer will host the 1988 Annual meeting in Chicago, IL.

A report concerning the S.O.F.T. Position Statement on the NIDA/HHS Guidelines was given by Richard Prouty. The question of whether or not S.O.F.T. should support the proposed Position Statement had been presented to the membership by ballot. Two hundred ballots were mailed to full members; 130 ballots were returned:

117 in agreement; 11 in disagreement; 1 abstention; and 1 "confused"

The S.O.F.T. Position Statement on the NIDA/HHS Guidelines is accepted. A motion suggesting that President McGee submit the Position Statement for publication in one or more refereed journals was passed.

The Board of Directors voted to elect Dr. William Anderson to serve on the S.O.F.T. Executive Committee.

Treasurer ,James Valentour reported that the net income, to date, for the 1987-88 fiscal year is $15,037.49. Of that amount, $12,158.61 was derived from the Key Biscayne meeting profits. The current balance in the S.O.F.T. treasury is $24,470.24. Total ERA Fund allocation to date is $11,314.50.

COMMITTEE NEWS:
- Committee appointments were announced by President McGee and are published elsewhere in ToxTalk.
- The Meeting Site Committee and the Meeting Policy Committee are now combined in the Meeting Advisory Committee.
- A new committee to address S.O.F.T. QA/QC Guidelines and regulatory actions is being formed with Dr. Michael Peat as chairperson.
- The Board moved to increase this year's ERA Award to $750.00. There are currently three applicants for this year's awards. A subcommittee to develop guidelines for determining the amount of future ERA Awards was formed by President McGee.

NEW BUSINESS included:
- A discussion of ways S.O.F.T. may be effective in mediating individual employer/employee conflicts, particularly where unethical conduct is concerned.
- A motion passed to increase the funding limit for the S.O.F.T. Executive Coordinator to $1,500.
- A motion to simplify record keeping and billing procedures by obtaining telephone credit cards for S.O.F.T. Executive Committee members and Coordinator was passed.

Currently, there are openings on the S.O.F.T. Health and Safety Committee (formerly the "Right to Know Committee"). This is your opportunity to pitch-in and contribute to S.O.F.T. on a committee with a very important mission. Contact President McGee for more information.

CONGRATULATIONS, JANE SPEAKER, who was presented to:

The SOFT Board of Directors recently approved the first three Educational Research Awards for 1988. The recipients are: Vickie W. Watts, Daniel S. Isenschmid and Anthony G. Constantino

Watts, who is with the Mesa Crime Laboratory (Arizona) and has been a regular contributor to ToxTalk, received this award for her research project entitled “The Evaluation of Analytical Methods for Pentamyl, the Pentanyl Derivatives and Their Nortometabolites.” Isenschmid and Constantino are both previous ERA recipients. Isenschmid is working on “Interpretation of Cocaine, Benzoylecgonine and Egonine Methyl Ester Concentrations in Post Mortem Biological Fluids and Tissues.” Constantino’s project is entitled “A Study of Factors Effecting the Disposition of Drugs in Human Cadavers.”

All three projects significantly affect the needs and interest of forensic toxicologists and will be conducted, as part of the Graduate Program in Forensic Toxicology at the University of Maryland under the direction of Dr. Yale H. Caplan.

WANTED

Motivated and interested SOFT members to serve on the HEALTH AND SAFETY COMMITTEE (formerly Right-to-Know Committee). Contact President Michael McGee for further information.

CALL FOR CONTRIBUTED PAPERS

1988 SOFT ANNUAL MEETING Philadelphia, 28 September-1 October

The next annual meeting of the SOFT will be in Philadelphia, PA, 28 September-1 October at the Hershey Philadelphia Hotel; plan to attend. Information on program activities, housing and registration will appear in TOXTALK and directly mailed to all members. Contributed papers may be submitted until 30 June 1988 for either POSTER or SLIDE sessions; see instructions and abstract sample below. In a poster session each contributor will have a bulletin board on which to display text and graphics for about two hours so the work can be discussed with those interested. In a slide session each contributor will have 15 or 20 minutes to present his or her work and show 35 mm slides. The privilege of contributing a paper is extended only to SOFT members, but the member may merely endorse the contribution and need not be one of the authors.
